SPECIAL NOTICES TO PURCHASERS

AVAILABILITY OF SERVICE AND PARTS AFTER WARRANTY

Holden's Motor Company and General Motors-Holden's Sales Pty. Ltd. have franchised dealers in many parts of Australia for the sale of service parts and the provision of service to owners of HMC's products. Every endeavour is made to ensure that such dealers carry adequate stocks of service parts and are equipped to provide satisfactory service, but neither Holden's Motor Company nor General Motors-Holden's Sales Pty. Ltd. makes any promise that after the expiration of the warranty such parts or service facilities will be available, or available at any specific location or at any particular time.

UNAUTHORISED STATEMENTS IN RELATION TO HMC PRODUCTS

No Holden dealer or other person is authorised or permitted to give or make any statement assertion or undertaking in relation to the quality performance characteristics descriptions or fitness for any purpose of any HMC product or in connection with the supply of any HMC product, which is at variance with any written statement assertion or undertaking on any of these subjects given or made by Holden's Motor Company or General Motors-Holden's Sales Pty. Ltd. in its published sales literature, and neither company accepts any liability for any such unauthorised action.

WARRANTY ON HMC REPLACEMENT PARTS

Holden's Motor Company warrants in respect of HMC parts and accessories required as replacement parts, that it will make good by repair or at its option by replacement any defect occurring in any such HMC parts and accessories within 12 months from the date of acquisition or in the case of a HMC part or accessory which has been installed in a vehicle by a Holden Dealer or Service Dealer before such vehicle has travelled a distance of 20,000 kms from the date of installation, whichever first occurs.

Maintenance items such as filters, spark plugs, wiper blades and brake pads/linings will require replacement as part of normal vehicle maintenance. Such replacements are not the subject of this Warranty.

This warranty is in addition to the statutory rights and remedies given to consumers.

SPECIAL NOTICE TO PARTS PERSONNEL

PARTS, KITS AND MATCHED SETS

The assistance of dealer's staff should be readily available to customers so as to promote their selection of replacement parts of the right kind and quantity.

Certain parts are marketed individually, others are sold as a component of a kit as well as individually. This fact should always be made known to a customer whether he asks for a kit or for a separate part.

In some cases, safety or good engineering practice requires that a number of related parts be replaced at the same time. In such cases, the parts are marketed only as a kit.

Where careful selection of co-operating parts is necessary, these parts are sold only as a matched set.

In every case where a service part is not made available individually, the reason for its being marketed in some other way should be explained to the customer.
